

I am writing to try to express how much K-Love means to me. I have been listening to K-Love for about 2 years. It has changed my life. The music is so uplifting and encouraging, I often cry tears of joy while listening. Recently I was having a painful time with a co-worker, and I was dreading getting to work when I heard a song in the car, about how much God loves me, how I am precious to Him, and I was able to make it through the day. America NEEDS pure, clean music. We need to hear that there is a God who cares for us. We need an alternative to all the junk that is easily available everywhere. I run a support group and have encouraged the people to listen to K-Love to encourage them and teach family values. Please keep K-Love on my radio!

Sincerely, Nancy Cavataio
